César Vallejo

Informative Brochure 2025

33
years

ucv.edu.pe

Welcome

We are a university constantly striving to transform society through high-quality education. With a solid methodological approach and a clear vision driven by innovation and entrepreneurship, we have established ourselves as a space that not only nurtures dreams but also turns them into real opportunities.

We understand that for Peru to move forward, it must be well-educated. That is why we have worked to decentralize our educational services, enabling students and their families to shape their own futures through our twelve campuses nationwide.

We fully embrace our responsibility in fostering research as the only path to broaden horizons. For this reason, we have strengthened our educational infrastructure to offer our students a richer learning experience that enhances their skills and knowledge—empowering them to become agents of change in their communities, our country, and the world.

We have spent 33 years on the path to academic excellence, and we are proud to know that every step we take—together with our students and faculty—brings us closer to our goal.

César
Acuña Peralta

Founder

MISSION

Universidad César Vallejo educates entrepreneurial professionals with values, a humanistic, scientific, and technological perspective, and a strong commitment to transforming the global society for sustainable development.

VISION

By 2027, Universidad César Vallejo will be recognized as an innovative institution that develops responsible entrepreneurs.

CORE VALUES

Freedom, solidarity, democracy, respect, truth, responsibility, entrepreneurship, honesty, competitiveness, justice, and innovation.
